FiltraPac™ Backpack Vacuum

FiltraPac™ Backpack Vacuum - The Best Filtration Value In Its Class!

We Do Carpets ...

Increased Comfort: Ergonomic pack frame with padded shoulder straps provides support and stability yet allows air to flow over the operators back.

Reduced Effort: High productivity rates without the heavy push/pull of an upright vacuum.

Micro Filtration: A true four-stage filtration system provides HEPA quality filtration at 0.3 micron with 99.79% efficiency.

Convenient Multi-use Operation: On-board tool storage for quick and easy tool change with a complete tool kit for carpet, overhead, and detail cleaning operations.

FiltraPac™ Deluxe

Increased Cleaning Power: The FiltraPac™ Deluxe, with the powered cleaning wand, delivers exceptional performance.

The Power of a 2 Motor Upright Unit: Combined with the productivity and ergonomic benefit of a light-weight backpack.

Added all together, it equals the highest value, productivity, and efficiency available.

A wide array of tool options adds versatility.

Top fill design for maximum filter efficiency

Filter lock prevents operation if bag filter is not properly installed

Contoured frame for increased operator comfort

True 4-stage HEPA quality system filters 0.3 micron at 99.79% efficiency

Quick and easy access to filters make service a snap

Exhaust vents away from operator for cool operation

Powerful vacuum system - 1 hp 2-stage motor 95 CFM, 68 in. waterlift

Air velocity dispersed for reduced air-blow of light materials

On-board tool storage for quick tool change and easy use

Large capacity 6 1/3 quart filter bag

Super stretch hose

A true pack frame / harness provides real results! Increased efficiency, less body stress, and half the effort.

■ 12 in. Single Motor

■ 14 in. Dual Motor

■ FiltraPac™

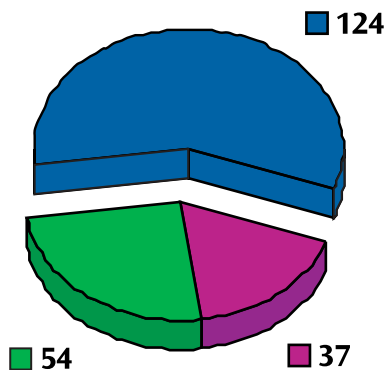

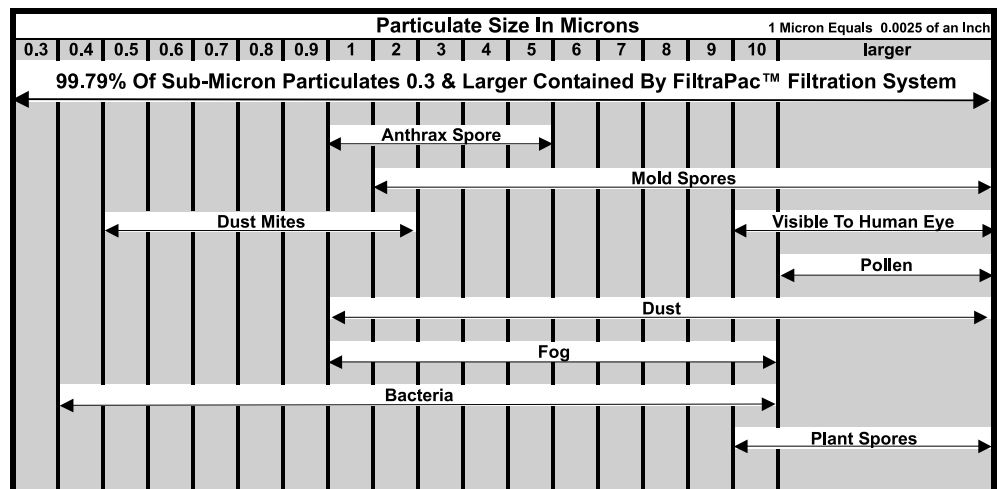

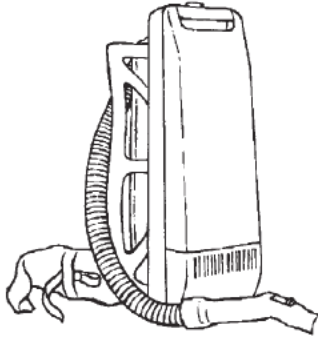

Chart compares cleaning productivity (sq. ft. / 1 min. time)

Productivity + Ergonomics + Filtration = Superior Value

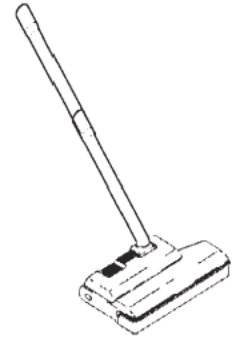

“The Leader of the Pack is FiltraPac™”

KEY FEATURES

- True four-stage filtration provides 0.3 micron @ 99.79% efficiency
- Large 6 1/3 quart capacity top fill 2-ply disposable bag filter
- Ergonomic pack frame provides added comfort and maneuverability
- Powerful vacuum system 1 hp 2-stage motor
- 95 CFM - 68 in. waterlift
- Quiet 68 dB operation
- On board tools and holders for quick access

SPECIFICATIONS

Model	FiltraPac™ Std. Tool Set	FiltraPac™ Deluxe Tool Set
Part Number	02150A	02152A
Power Source	115 VAC, 60Hz	
Brush Motor	N/A	Power wand 1/4 hp permanent magnet motorized beater bar
Brush Motor Performance	N/A	11,000 rpm
Vacuum Motor	1 hp, 2-Stage	
Vacuum Motor Performance	19,200 rpm, 95 CFM, 68 in. water lift	
Power Cable	40 ft., 18 ga., 3-wire	
Accessories	Complete set of nozzles, wand, and floor tools	
Hose	64 in. x 1 1/4 in diameter	
Filter System	True 4-stage filtration system	
Filter Efficiency	0.3 micron @ 99.79% efficient	
Weight	11.5 lbs.	

WHO USES THIS MACHINE?

- Hospitals - commercial offices
- Public facilities - airports
- Schools - universities
- Hospitality - hotels
- Cleaning contractors
- Government building and agencies

WHAT DOES IT DO BEST?

- Cleans carpets and office furnishings with a high degree of productivity for large and small areas
- Provides HEPA quality air filtration

WHAT MAKES IT EASY TO USE?

- Single pass cleaning
- Ergonomically friendly - Less effort and stress - increased efficiency and productivity
- Easy operation and convenient controls
- Complete line of tools with on-board storage

WHAT ENHANCES ITS PRODUCTIVITY?

- Fast and easy to use
- Light weight and high mobility
- High productivity rates - more than three times the productivity of a 12 in. single motor upright
- 40 feet of power cable for long reach

WHAT ADDS TO ITS DURABILITY?

- Easy access filters for quick maintenance
- Thermal overload motor protection
- Vacuum will not operate until filter bag is in place
- A proven design - quality you can count on

WHAT ARE THE SAFETY FEATURES?

- Reduced body stress and strain
- Improved air quality
- Quiet 68 dB operation

WHAT ARE THE OPTIONAL FEATURES?

- Full line of floor tool accessories
- Powered wand
- Cloth filter bags
- Optional HEPA filter available
